

## Statewide Geotechnical (Aust) Pty Ltd

### Environmental Policy

Statewide Geotechnical (Aust) Pty Ltd is dedicated to adopting industry-leading best practices in environmental performance.

Specifically, Statewide Geotechnical is committed to:

- Conducting operations in a manner that minimizes environmental risks and, where possible, eliminates adverse environmental impacts.
- Continuously improving our environmental performance through regular reviews, the establishment of stringent environmental objectives, and the setting of measurable targets, with a particular focus on:
  - Efficient energy use
  - Water conservation
  - Waste minimization and recycling
  - Pollution prevention
- Engaging openly and constructively with the communities surrounding our operations.
- Complying with all relevant environmental legislation, regulations, standards, and codes of practice as a minimum requirement in each of the communities where we operate.
- Partnering with suppliers and contractors who share our commitment to the values and objectives outlined in this environmental policy.

Through ongoing communication and training, we will support and encourage our employees and contractors in enhancing Statewide Geotechnical's environmental awareness and performance.
